

Multidisciplinary Tumor Board on Salivary Cancer: MSK and HCG

Saturday 6pm IST | 8.30am EST May 7th, 2022

Tumor Board

**Memorial Sloan Kettering
Cancer Center (MSK)
presents:**

Head and neck cancers are among the leading causes of cancer morbidity and mortality in India and globally. To improve patient outcomes through research and education, we are excited to present an educational series with the leading institutions in India. The host institution for this event on salivary cancer is HCG Cancer Centre in Ahmedabad. We will be discussing two cases followed by two lectures.

Case 1: Parotid Tumor Requiring Sacrifice of Facial Nerve

(presented by MSK Fellow Dr. Conall Fitzgerald)

Case 2: Locally Advanced Parotid Cancer Requiring Extensive Surgery with Neck Dissection and Reconstruction

(presented by HCG Fellow Dr. Parul Sobti)

Lecture 1: Role of IONM in Parotid Surgery: Dr. Aditya Joshipura (HCG)

Lecture 2: Nuances in Facial Reanimation: Dr. Joseph Dayan (MSK)

Moderators

Dr. Richard Wong
Surgeon, MSK, NY

Dr. Kaustubh Patel
Surgeon, HCG, Ahmedabad

Panelists

Dr. Rajendra Toprani
Surgeon, HCG, Ahmedabad

Dr. Dushyant Mandlik
Surgeon, HCG, Ahmedabad

Dr. Ian Ganly
Surgeon, MSK, NY

Dr. Joseph Dayan
Surgeon, MSK, NY

Dr. Daxesh Patel
Surgeon, HCG, Ahmedabad

Dr. Kinjal Jani
Radiation Oncologist, HCG, Ahmedabad

Dr. Aditya Joshipura
Surgeon, HCG, Ahmedabad

Welcome Message

Respected colleagues and friends,

For over 135 years, Memorial Sloan Kettering Cancer Center (MSK) – the world’s oldest and largest private cancer center – has been dedicated to providing exceptional patient care through research in cancer prevention, detection, diagnosis, and innovative therapies. Our educational programs train future physicians and scientists, and the knowledge and experience they gain at MSK has an impact on cancer treatment and biomedical research around the world.

We recognize that global challenges, be it cancer, COVID-19, or climate crisis require global solutions. We need greater cooperation in areas of education, health policy, basic and translational research, and access to clinical trials. At the Bobst International Center at MSK, we have established cancer collaborations across Africa, the Middle East, and Asia-Pacific.

As part of this effort, we are excited to present educational programming between MSK and healthcare institutions across India. The host institution for this event is HCG in Ahmedabad. We are grateful for the vision and leadership of Dr. Kaustubh Patel to facilitate this collaboration on the area of head and neck malignancies, which are among the leading causes of cancer morbidity and mortality in India and globally.

Through these interactive tumor boards, we hope to accelerate exchange of knowledge to improve patient outcomes, new research collaboration, and increase graduate training between MSK and the head and neck oncology community of India.

The MSK Bobst International Center in New York has long helped patients diagnosed with cancer seek a consultation or for their treatments. Every year, we have a significant number of patients from India who seek second opinion and/or travel to New York for cancer care. We are now thrilled to announce the inauguration of the MSK Center in Chennai. Our dedicated team in Chennai helps patients from across India obtain a remote second opinion from disease-specific experts at MSK in New York. Thanks to our unique partnership with iCliniq, a global telemedicine company, patients can avail a remote consultation in the comfort of their home or any internet-enabled location. These remote opinions provide an avenue for frequent exchange between their oncologists in India and those at MSK in New York. Dr. Varadarajan Kumar oversees the remote opinion program and is your primary contact to connect over patient care, educational programming, and research collaborations.

We are grateful for your interest in attending this event and look forward to seeing you at future events.
